

The date on the profile page does not translate after changing the site language to English.

Priority:Medium

Saverity: Minor

Environment: Windows 10 64x; Google Chrome 102.0.5005.115;

Preconditions:

1. Go on <https://dl.nure.ua>
2. Login with email: name@nure.ua      password: Mypassw

Steps:

1. In the top menu click on the profile photo and select "Language" from the drop-down menu.
2. Select and click on English.
3. In the top menu click on the profile photo and select "Profile" from the drop-down menu.
4. Look at the dates in the "Login activity" and "Mobile App" blocks on the right side of the page.

Actual result: The day of the week and the month are displayed in Ukrainian, after changing the language of the site to English

Expected result: After the page is translated into English, the dates are also translated into English.
